

Very positive experience

- Topics are all excellent
- Posters evolved well over the day
- Provide a good basis for future work
- Hop in and collect data, don't over-specify
- You all have great potential, submit posters and get more feedback at conferences

Group Leader Reflection

Methodology

- engineering method, a definition would be useful to students.
- social science methods are also suitable, especially internationally

Methods suitable for

- Informatics
- Infomatics engineering
- Education
